## Musacoin's Mission

In the spirit of King Musa's legacy of bringing wealth to all people, the Musacoin team has designed and developed MUSA BSC Token to bring the benefits of cryptocurrency and DeFI(Decentralized Finance) to all people as a “Free Trade Crypto” with zero sell or transfer taxes. MUSA was created to provide opportunities for minorities and other disenfranchised members of society to participate in the rapidly evolving cryptocurrency and DeFI communities. The goal of Musacoin Network is to create a community of inclusion that encourages minority participation in the emerging crypto and NFT markets as investors as well as developers.

## Musacoin Features

Musacoin (MUSA) is different from other BSC tokens. Musacoin is designed to be used for everyday purchases and exclusive limited edition Musacoin NFTs. Unlike other popular Binance Smart Chain (BSC) tokens with high buy and sell taxes, Musacoin only has a small buy-in tax (8%). Musacoin is unique because its contract doesn't have sell, swapout, or transfer taxes. Your achieved gains won't be lost when you swap, transfer to friends and family, or use MUSA for everyday purchases.

Our goal is to be listed with CoinPayments so MUSA can be accepted by 100k+ merchants globally.

### TRUSTED TEAM

The Musacoin Team is 100% Doxxed and the Musacoin Network Corp. is an official incorporated entity.

### EXCLUSIVE NFTS

The Musacoin Team Is Developing Exclusive Limited Series 3D NFTs that can be viewed in the Metaverse.

### HIGH MANUAL BURNS

To lower the supply and increase the price, the Musacoin Team will conduct frequent manual token burns.

### SECURE LP

The Musacoin LP is secure and locked but remains flexible so the LP can be accessed for staking at a later date.

### BSC BLOCKCHAIN

Since MUSA is a token on the Binance Smart Chain, holders will experience low transfer fees.

### 1000X GROWTH POTENTIAL

Musacoin is an amazing project with a dedicated team behind it. It's a 1000X growth potential project.

**"Change Your Mind. Change Your World."**

## **Musacoin's Community Vision**

There is an old African proverb that says it takes a village to raise a child. This means that everyone in the village is considered vital to insuring the growth and success of that child. Just as everyone in the village will celebrate the accomplishment of the child, they will also share the responsibility of insuring he or she becomes successful in his or her endeavors. This responsibility is assumed not only for a child, but for anything the village produces.

In today's world of hyperconnectivity the concept of village has been replaced by community. This technology has allowed us to redefine community. Community no longer consists of a place that is limited to a geographical location, or people that share common ancestry or culture. At the core of community is the word unity. Whether the community is in a geographical location or cyberspace, it must consist of likeminded individuals that share common purpose and destiny.

## Musacoin's Community Vision (cont'd)

At MUSA we believe that community should always be at the forefront of all that we do. Every decision must be made for the good of the community. The only way that MUSA can be successful is if the community we serve is successful.

Our organizational structure and purpose are guided by these core principles.

**Community** - The developer and team at MUSA will always put the good of the community above personal gain. Our Tokenomics are structured to ensure the wellbeing of community. MUSA is not structured to be a rug pull token where the gain of the developers come at the expense of the community. MUSA was created for a greater purpose.

The collective good of the community outweighs personal gain and self-promotion of developer or team. No man is an island. We are a decentralized community of stakeholders that are connected by a brand and a common destiny. Our team is dedicated to building that brand. We can only do it with the cooperation of the community.

If a member of the MUSA community has a product or idea they would like to share with community, they are free to do so if it does not violate our core principles.

## Musacoin's Community Vision (cont'd)

Community is vital to the success of MUSA. Any venture or business that we engage in must benefit the community.

Our collective resources are essential for the community we are building.

Unlike MLM or other get rich quick schemes you are not required to recruit new members to benefit from MUSA. Our team does the heavy lifting. Our marketing teams are consistently blitzing social media and email campaigns to attract new holders.

As the community grows so does the wealth of our individual stake holders. The Musacoin contract is structured so that individual holders are rewarded each time MUSA is purchased. Unlike credit cards where you must make purchases to get rewarded, at MUSA, our holders are rewarded with more MUSA every time someone else buys MUSA. These tokens are added automatically to the tokens the holder has in their wallet.

**Integrity** - MUSA will not engage in any activity that negatively impacts the community or individual holders. MUSA will not participate in money laundering or any illegal activities. MUSA will not employ rug pull or pump and dump schemes to promote individual gain at the expense of the community.

## Musacoin's Community Vision (cont'd)

With the growth of cryptocurrency there are a lot of scams out there. Some coins are developed with the sole intention of taking advantage of their holders. This type of thinking is short sighted and lacks vision. Short term gains might be enticing, but in the long run you turn friends into enemies and can get yourself in legal trouble.

At MUSA we believe we can grow faster and do more by treating people as we would want to be treated. When you maintain integrity at the core of all things you do, you open yourself up to the positive energy of the universe to flow back to you. The developer and team at MUSA are dedicated to this principle. It is the guiding force that allows us to face the mirror and the world every day.

**Growth** - MUSA is committed to long term growth of the community of individual holders. Our goal as a community is to grow a global brand that will impact people around the world. Liquidity pool will be protected for the interest of long-term holders who will be rewarded with no fee sales and refunded a percentage of all future sales. As the community grows the team will seek out other opportunities to share savings in other sectors like travel and entertainment through the power of group purchases.

## Musacoin's Community Vision (cont'd)

**Empowerment** - MUSA is committed to a vision of empowerment. Our purpose is to encourage and promote community empowerment on a global level. By networking with other visionaries and entrepreneurs Musa's vision is to promote a global community that strengthens and empowers each other. As we grow as a community, we will empower each other with each innovation. Stakeholders will see their wealth grow through the principles of empowerment that we will share among each other. MUSA will support other minority businesses and organization that have a positive purpose.

## Musacoin NFTs

NFTs are a revolutionary segment in the global crypto market. As unique tokens, they represent a specific asset embedded with digital security and authenticity. Unlike blockchain cryptocurrencies, each NFT is unique, indivisible, and not interchangeable for another.

Musacoin will be engaging with the expanding NFT market by producing 2D, 3D, and Metaverse NFT's on the Binance Smart Chain (BSC).

The advantage of minting Musacoin NFT's on the BSC is that fees are low to purchase them and transfer to your crypto wallet.

# MUSACOIN WHITEPAPER 1.0

## Musacoin Merchandise

Musacoin is developing a whole line of merchandise featuring the unique Musacoin logo.

Show your support for the Musacoin Community with Official Gear from the Musacoin Store.

15% of the Sale of Musacoin merchandise will go the "**Youth Mentoring Connection**" Program.
